

Company Matching...

Does Your Company Match Contributions
to Non-Profit Organizations like ours?

If so...this is a great way to help support your Music Department

Here are some basic facts:

- The District funds less than 15% of the music budget
- Fairshares/Donations provide only a piece of the monetary support we need
 - Fundraising Events are critical to our program
 - Business Contributions are essential

Company Matching Contributions is an easy way to help offset our budget shortfall so we can continue to offer the excellent music programs at WHS!!

Some of the local Companies that match are:

- **Amgen**
- **Bank of America**
- **California Wellness Foundation**
- **Countrywide**

You will find a list of companies on the back of this sheet that also do company matching. Please contact your HR department to validate this and to find out the process your company requires.
